THE WESTERN TERRITORIES.

A comparative statement of the area of the present States with the of the territory destined to be erected into States exhibits the interesting fact that the area of the latter in square miles exceeds that of the formor. The superficial area of the Territories, organized, and unorganized, is set down as follows:

Minnesota Oregon Washington	do	11,000 Nebraska 27,000 Mesilla 13,000 Indian	Square mile Territory 210,00 do 528,00 do 78,00 do 187,00
			1,807,00

To these Ducotab is to be added, of the extent of which we have imate.

Square miles. Square miles. 30,000 New Hampshire	Delaware. Maryiand. Virginia. Norin Carolina. Sonith Carolina. Sonith Carolina. Georgia. Alabama Florida. Louisiana Arkansas Mississippi Missouri. Tonnessee Kentucky	miles. 2,120 9,674 45,000 24,500 58,000 58,782 46,431 52,198 67,380 47,156 45,600 37,680 237,321
622,190		838,520 622,190

It is seen that the area of Kansas is hineteen thousand square miles greater than that of all New England, New York, and New Jersey, and that the area of Nebraska is inhety-five thousand miles greater than that of all the non slaveholding states except California. Oregon is nearly equal in sation to all New England, New York, Pennsyl, vanis, Ohle, and Indiana. It is possible that New Mexico and Mesilia will be embraced in one territorial organization by Congress at the present session, containing 388, 560 square miles—exceeding all New England, New York, Fennsylvania, Ohle, Indiana, and Illinois. Wash Ingion exceeds in extent all New England and New York.
